

WILLIAMS WILL WORK FOR 'Y'

Takes Charge of Membership, Promotion and Publicity.

W. A. Williams, who has been connected with the Army Y. M. C. A. for several months, has taken the work of membership, promotion and publicity in the local Young Men's Christian association. Mr. Williams is an old resident of this city and is known by all of the boys on the street as the man with the glad hand. The official feel that he is a real asset to the local association.

Mr. Williams has taken the place of C. C. Minatta, who has been transferred to the employment work of the association, in which he will devote his entire time in aiding returned soldiers in obtaining jobs.

Farmers Ask Figures on Cost of Production To Disclose Profiteering

Washington, D. C., April 12.—To protect consumers against "profiteering" and to assist in political stabilization, the federal trade commission was requested by the Farmers' National council today to make public all figures in its possession on the cost of production for various commodities.

"We feel that this information is of very great importance to the American people," said a letter addressed to the chairman of the commission, "and that its publication will reassure the public and protect consumers against profiteering."

Every man and woman in El Paso is challenged by the church's service, spirit and program and owes cooperation. Go with the crowd Sunday.

COACH TALKS ON SPORTSMANSHIP

Baker To Address Next Meeting of The High 'Y' Club.

At the regular meeting of the High 'Y' club, held Friday evening at 8:15 at the central Y. M. C. A. building, coach L. Cobbett, of the high school team, gave a talk on "Good Sportsmanship."

A report of the other boys' conference was given by members.

At the meeting to be held next Friday night Rufus Baker will talk to the club on "The Meaning of Easter to the High School Boy." Preparations are now in progress for the "Mother and Son" banquet to be given by the club in May, that month having been selected because of the Mothers' day celebration.

GOVERNMENT TANK WILL TRY TO CLIMB PIKE'S PEAK

Colorado Springs, Colo., April 12.—Hundreds of Colorado Springs residents, who turned out today to welcome the government tank which is to attempt the ascent of Pike's Peak on Monday, were disappointed. The car failed to arrive and railroad officials were unable to locate it.

Officials of the Pike's Peak automobile highway, over which the tank will attempt the ascent, reports ice and snow 20 feet in places, but members of the tank crew, who have already reached the city, express no fears of being unable to reach the summit.

Hotel Langham lobby is the present and most desirable in El Paso. Plenty easy rockers for the guests are now in progress for the "Mother and Son" banquet to be given by the club in May, that month having been selected because of the Mothers' day celebration.

RED CROSS HOME SERVICE WORKERS MEET AT TUCSON

Phoenix, Ariz., April 12.—A conference of Arizona home service workers of the Red Cross will be held in Tucson, April 13.

J. C. O'Connell, director of civilian relief for the Pacific division, of San Francisco, will preside.

By the first of June many of the Red Cross departments will have finished their work, but the home service sections find that the volume of their activities is increasing rapidly, and it is to prepare a program for future operations that the Tucson meeting has been called.

Hotel Langham lobby is the present and most desirable in El Paso. Plenty easy rockers for the guests are now in progress for the "Mother and Son" banquet to be given by the club in May, that month having been selected because of the Mothers' day celebration.

IF YOU WANT TO BUY IF YOU WANT TO SELL

Ranger, Tex., Apr. 8.

J. L. NYSEWANDER.

Hotel Del Norte, El Paso, Tex.

Texas Ranger on Boole's Farm making gas on top of Black Lime. Looking for big well. We are setting twelve inch pipe in our well at eight hundred feet today. Texas Pacific well under hill east of us came in, shot over the derrick yesterday.

(Signed) W. J. DOBBS, President.

Some of Arizona, New Mexico and Texas' most conservative men after investigation of our holdings and incorporation have invested heavily—MEN WHO KNOW.

Were You Asked to Buy Stock in Any of the Above Wells or Companies?

ARE YOU SORRY?

There must be hundreds of people, who today would be well off if they only possessed a few shares of stock in either of the above two companies—THINK! What it would have meant? Possibly independence, others who used better judgment and bought are today beginning to reap the reward of having just plain HORSE SENSE. Opportunities like these are offered many times over in the great Ranger gusher district, WHERE WE ARE DRILLING ON OUR FORTY-FOUR ACRE TRACT, provided you get in on the ground floor with a sound, sincere company, where wells drilled are sure of big results and considered the SAFEST BET ON EARTH and it is up to you, Mr. Conservative Man, to analyze the results obtained in this great field, and it's to you we are speaking.

They Are Striking Gushers All Around Us

They are striking gushers all around us, and some of these days not very far off DON'T BE SURPRISED to see a telegram similar to the one above, only stating the WEIMAR OIL COMPANY has come in on the top of Black Lime. Remember now these wells are within a short distance of the Texas Ranger and the Texas Pacific. Other wells are due in shortly AND THEY WILL COME THE WEIMAR. You missed great opportunities before, but this opportunity is the GREATEST YET—GRASP IT TODAY. Don't miss again.

Now—About Our Well

Our forty-four acre tract, where we are now drilling, is three and one-half miles northeast of Ranger ON THE FAMOUS BOOLE'S FARM in the heart of the GUSHER DISTRICT and it is within a short distance of these famous wells—the Roper, the Terrill, the Carey, the Wilcox, the Heater and dozens of other noted producers. The Boole's farm having several companies drilling on it, it already is considered by geologists and experienced oil men as an UNCLE DIAMOND IN A FIELD OF GOLD. We are down 400 feet and are setting twelve inch casing. The well is being superintended by one of the BEST DRILLERS in the RANGER FIELD, who has drilled many wells for the Prairie Oil and Gas and the Texas and Pacific Oil and Gas Company. Now you see we have the location—we have the well started—the driller knows his business and knows Ranger local and the strong directorate of unblemished business men behind this company. WHAT DOES ALL THIS SPELL? IT MOST CERTAINLY MEANS SUCCESS.

Some of Our Holdings

44 ACRES Ranger Gusher District
Where We Are Now Drilling

120 acres Palo Pinto County, drilling well just north; also one just south of our acreage, the one on the south being now in the black line, nearing the day; 214 acres Jack County, near drilling wells; 51 acres McLoughlin County, near drilling wells; 40 acres Callahan County, near drilling wells; 1 acres Callahan County, near drilling wells; 274 acres in Coleman County, near well.

The Weimar Oil Company has PRODUCTION. In the Humble field they have six wells. While this is a shallow pool this property is of considerable value and the company is operating these wells on their own complete power plant. The equipment used on the Humble wells and holdings is conservatively valued at about \$25,000. In addition to this the Weimar Oil Company owns all equipment for their Ranger well, which includes about \$20,000 worth of new pipe, a standard rig and string of tools.

You Are Investing Your Money With These Men:

—who have paid dollar for dollar for their stock. Study the men behind the Weimar Oil Company who are backing their judgment with their money—as well as advising their friends to buy.

W. J. DOBBS, President—Weimar, Texas (office Dallas), experienced oil operator, who stands high in his community. Invites investigation. His judgment on oil properties is recognized among the large companies of Texas.

A. P. BECK, Vice President—For nearly thirty years a merchant at Weimar, Texas, who has done business with many wholesale firms of Texas, and we will recommend his business judgment and his integrity as highly as any man in Texas.

Do you believe in these men—do you think they would advise their closest friends on anything wrong?—N-E-V-E-R.

25 Millionaires Already Made in the Wonderful Ranger, Texas Oil Field

\$15,000 FOR EACH \$100 INVESTED
NORWOOD WELL FLOWING 13,000 BARRELS DAILY

The great Ranger, Texas, Oil Field has already made twenty-five new millionaires—and no one knows how many more are now in the making. Never before in the entire history of our country was such great wealth accumulated by so many people in so short a time. The big money is yet to be made here. New millionaires are being added to the list almost weekly. This great field, the marvel and wonder of the world, has barely been scratched.

The Fowler Farm Oil Company has just sold its 125 acres of lease to the Magnolia Petroleum Company for \$1,800,000, giving the shareholders \$15,000.00 for each \$100 invested in addition to the moneys already received by the shareholders from oil sold since the first well came in, July 26, 1918.

OUR THIRD WELL—BETWEEN 5,000 AND 13,000 BARREL GUSHERS

Our third well will start immediately on the five lease located near the heart of this Wonderful Oil Field. The Norwood gusher, reported now flowing 13,000 barrels of high-grade oil daily, is one mile north of the Comanche gusher, reported flowing 8,000 barrels daily, is less than one mile in another direction—the Harris gusher while is not drilling itself in and reported flowing 6,000 barrels is less than three-fourths of a mile in another direction from us. We are needed around and almost surrounded by the largest high-grade oil wells in the world. We are only 800 feet from Magnolia tank farm and pipe line. One well on this lease, as good as either of these wells, would be worth millions.

YOU WANT QUICK ACTION—2 WELLS ALREADY DRILLING

Our first well on our 100-acre Fritts lease is now down 2,825 feet. This well will soon come in. It is midway between the Tippett and Downing wells and right in line with the great Duke and Knowles gushers in Comanche County, Texas. The Duke gusher came in reported making 2,500 barrels each and the Knowles gusher 2,500 barrels, which has just been drilled three feet deeper and is reported now flowing 10,000 barrels of high-grade oil daily.

Our second well on our 165-acre Montgomery lease is now down 3,300 feet and going deeper night and day. We also own four splendid 40-acre tracts in close proximity to this lease in Comanche County, Texas. We own 425 acres of leases in this County.

We also own over 1,000 acres of well selected and splendidly located leases in Hamilton and McCulloch Counties, Texas, which are increasing rapidly in value as development is getting closer to these properties.

KNOWLES WELL IN COMANCHE COUNTY FLOWING 10,000 BARRELS DAILY.

Comanche County is rapidly coming to the front and already has several big gushers to her credit. We asked Comanche County for big production—we were right. There is not a dry hole in the County. We believed in Comanche County so strongly that the officers of our Company spent \$75,000.00 of their own money in shipping engines, boilers, tools, pipes, casing and other equipment from our Oklahoma Supply Yards BEFORE WE OFFERED A SINGLE SHARE OF STOCK FOR SALE.

We spent \$5,000.00 IN FREIGHT BILLS alone to get our equipment onto our Comanche County leases—over 300 wagon loads.

We didn't ask our stockholders to put up money to buy this equipment. We went right at it—mad or no mad. That's the way we do things.

SEE WHO OUR NEIGHBORS ARE!!

The largest and most successful Oil Companies in America have purchased leases immediately adjoining and surrounding our two drilling wells—around our 100-acre Fritts lease are the Humble Oil & Refining Co., Texas Company, Sun, Gulf, Atlantic, Empire, Casden, Prairie, Sinclair and Invader Oil & Refining Co. Around our 165-acre Montgomery lease are the Humble Oil & Refining Company, Texas Company, Ohio Cities Gas, South Penn, Sun, Osoline, Empire, Gulf, Atlantic and Invader Oil & Refining Co.

We also own four additional leases of 40 acres each close to the Montgomery lease and located among the leases owned by these giant Oil Companies.

See what the big Companies THINK of our Fritts and Montgomery leases!!

We are now offering only \$25,000 of our stock for sale—out of our authorized capital of \$500,000. If either of our wells come in good, this will be sufficient. We reserve the right to advance the price or withdraw it from the market entirely without notice. You can buy our stock today at par value—\$1 per share.

BANKERS AND OIL MEN ARE BUYING OUR STOCK—WHY?

Because they know that Mr. A. M. Donnelly, our President, has drilled or supervised the drilling of over 4,000 wells in Texas, Oklahoma, Kansas and the eastern oil fields—because they know that we have been in the oil business for many years—they know that we know how to get production and how to take care of producing wells after we get them. They know we are reliable. Don't you forget that. We are Producers—not promoters.

Mr. Donnelly is also President of Invader Oil Company, which has over 40 producing wells and has paid 25 cash dividends to its stockholders. Mr. O. A. Wood, our Vice President, drilled the discovery well in the famous Dixie field. Mr. Garrett Donnelly, who superintends all of our drilling, is second vice president of our company. He's been supervising the drilling of oil wells for the last 15 years.

We GUARANTEE that you will be given a square deal—that you will share in all the wells we drill—in all the properties we own—in the properties that we hereafter buy—in all the profits of our Company.

If either of these wells come in big, the shareholders of the Tulsa Producing & Refining Company will cash in strong—and do it quickly.

You will feel pretty good some of these fine mornings when your shares jump to 5 or 10 for one.

We believe this is going to happen—and happen soon too.

Now is your chance to get in with successful oil men.

HERE'S RELIEF FROM THOSE TERRIBLE HEADACHES

These terrible headaches are relieved almost instantly. One lady says: "I have been subject to severe headaches for about seven years. My head would ache so badly at times that I could scarcely open my eyes. I tried many remedies but nothing seemed to help. I finally decided to try Hunt's Lightning Oil. I used it as directed and in a few minutes the pain was gone. I have not had a headache since."

A Wonderful Remedy for Rheumatism, Neuralgia, etc.
